PREMIER LIFTING SOLUTION
FOR ALL SERVICE VEHICLES

Vans | Enclosed Service Bodies
Service Bodies | Pick-Ups
Platform Trucks & Trailers

Where It All Began

In 1997, SpitzLift Founder, Michael Spitsbergen saw a need for a revolutionary tool. At the time, Michael owned a construction company that was managing large construction projects.

He would often rely on a large crane to do the work he knew a small crane could do.

Michael needed a small, lightweight crane that a worker could easily throw over their shoulder, climb to the roof, mount, and lift needed supplies. He thought it senseless, and overly expensive, to bring in a large crane when a small crane was better suited for the job.

At the time, however, a crane of this sort did not exist. So, the ever resourceful and entrepreneurial, Michael invented one. It got the job done efficiently and safely; saving time and money. He patented his crane, took it to market, and SpitzLift Manufacturing was officially founded in 1999. Today, thousands of SpitzLift cranes are being used worldwide.

SOLUTION PROCESS

IDENTIFY RELATIONSHIP

We determine customer relationship. Identify all involved parties and establish roles. Review timeline requirements.

EVALUATE SOLUTION

SpitzLift team works collaboratively with stakeholder groups to evaluate application through site visits, application simulations, and meetings. Once evaluated, we provide the solution that best meets all specifications.

PRODUCE PROJECT DOCUMENTS

SpitzLift produces installation and customized SOP documents for customer projects. Bid specs produced upon request.

DELIVERY & FULFILLMENT

Standard delivery time is 3-6 business days. Fulfillment deliveries comply with agreed upon timelines for installment implementation outlined in the customer project.

CUSTOMER SUPPORT

We support our products after delivery through warranty programs, excellent customer service, and our recertification program. We also provide tailored safety training upon request.

SIMULATION DOCUMENT

SpitzLift Engineering Simulations

We conduct 3D CAD simulations to verify the precision of the application and to eliminate interference with all other vehicle equipment.

SOLUTION COMPONENTS

SERVICE VEHICLE CRANE OPTIONS

- Length: 3 ft. or 4 ft.
- Manual crane with load control built-in brake
- Electric Crane: DC or AC (lifting speed 22 ft. per/ min.)

ADDITIONAL OPTIONS

- Strap: 2" UV resistant webbing. Abrasion resistant edge
- Wire rope: 3/16" aircraft-grade cable. 3600 lbs. rating
- Synthetic rope: 3/16" 4900 lbs. rating. Non-rotational, fatigue, abrasion, UV & wear resistant

SAFETY FEATURES OF ELECTRIC CRANES

- Safety release auxiliary handle
- Circuit breaker system for overload protection
- Dynamic and disc brake dual load control system

SPITZLIFT FEATURES

SPITZLIFT :

- Meets ASME, OSHA, and CE standards
- Every crane is tested and comes with a load test certificate
- Custom solutions are available to meet specialty applications
- Components are manufactured according to ISO compliance
- Vehicle specific mounts and installation hardware kits are provided

WARRANTY & RECERTIFICATION PROGRAM

2 YEAR STANDARD WARRANTY

(Will match OEM warranty up to 6 years)
SpitzLift is backed by comprehensive product liability insurance

WARRANTY RECERTIFICATION

Our recertification program extends the life of SpitzLift cranes and ensures all safety specifications are met. We recommend cranes be recertified every 24 months. Service includes replacement of all wearable parts, inspection of structural components, and a stress-test.

To ensure your products are OEM compliant within the 24* month recertification window, contact us at recertification@spitzlift.com.

*SpitzLift reserves the right to reduce the recertification timeline based on type of usage.

FOLD-DOWN CRANES

Our 3-foot fold-down crane is especially well-suited for service vans and enclosed service bodies. When not in use, the crane stores neatly out of the way to not interrupt workflow or take up valuable cargo space. With easy set up and operation, our fold-down cranes are an ideal addition to any enclosed service vehicle.

MOUNTS

* MOUNTS AVAILABLE WITH 16 INCH OR 26 INCH POST MAST;
37 INCH POST MAST FOR FOLD DOWN CRANE MODELS

Universal Vertical Mount

From posts to ship hulls, the Universal Vertical Mount provides a sturdy alternative mounting system for areas where eligible mounting surfaces may be scarce. The vertical mount can be attached to almost any solid surface that has structural integrity.

Universal Horizontal Mount

The Universal Horizontal Mount can be used for a variety of applications and is suitable for any solid flat surface; including concrete decks, trailers, and more.

Custom Applications

We are ready to assist you with special projects. Our engineering team has a successful track record of meeting custom application needs and exceeding customer expectations.

Off-Vehicle Application Evaluation

Call us for an evaluation of your off-vehicle applications so we can provide the optimal lifting solution.
